Profile Summary

- Motivated B.Tech Computer Science student at KR Mangalam University with a strong foundation in software development and full-stack web technologies.
- Proficient in Python, HTML/CSS, JavaScript, and C++, with hands-on experience building voice-enabled AI applications and desktop tools.
- Strong problem-solving mindset with experience in real-world development workflows and data structures.
- Eager to contribute technical skills to impactful projects while continuously growing as a developer.

Relevant Coursework

- Data Structures & Algorithms
- Generative AI
- Full-Stack Web Dev
- Object-Oriented Programming

Experience

Software Developer Intern - *Prodigy Infotech*

1 Month Internship

- Completed a hands-on software development internship, gaining real-world experience in development workflows and collaborative coding.
- Applied practical programming skills across multiple projects, improving understanding of production-level coding standards and best practices.

Projects

SmartSathi — AI Elderly Care Companion | *HTML, CSS, JavaScript, Browser APIs, CDN Libraries*

- Designed an AI-based voice-enabled companion for elderly care providing health monitoring, emergency assistance, and daily reminders.
- Implemented simple voice interaction interface ensuring user safety, independence, and timely support through real-time browser APIs.

Event Management System | *Python, CSS, HTML, JavaScript, Flask*

- Created a platform enabling seamless planning, scheduling, and coordination of events.
- Implemented features for attendee registration, event listing, and real-time updates for organizers.

Hospital Management System | *Python, HTML, CSS, JavaScript, SQL*

- Built a full-stack application to streamline patient records, appointment scheduling, and administrative workflows.
- Designed a clean dashboard interface enabling hospital staff to manage data efficiently with role-based access.

Technical Skills

Languages: Python, HTML/CSS, JavaScript, C++, Java

Frameworks & Libraries: NumPy, Pandas, Speech Recognition, NLP, Browser APIs

Tools & Technologies: GitHub, WordPress, VS Code

DataBase: SQL, MongoDB

Education

KR Mangalam University

2024 – 2028

B.Tech — Computer Science & Engineering | Pursuing

MLP International School, Rajpura, Haryana

2023 – 2024

Senior Secondary (Class XII) | 88.8%

MLP International School, Rajpura, Haryana

2021 – 2022

Secondary (Class X) | 86.4%

Extracurricular / Certifications

- IT Fundamentals — Udemy
- 30 Days DSA Bootcamp — Unstop
- Intro to Generative AI — AWS
- AI for Beginners — HP
- Data Science & Analytics — HP
- Cybersecurity Analyst Simulation — Tata / Forage (Jul 2025)
